PROFILE

Full Stack Developer with expertise in building scalable web applications, AI-driven tools, and robust data pipelines to optimize business workflows.

EXPERIENCE

Independent Software Consultant

Nov 2025 – June 2026

- Architected and built a production-grade email marketing platform from scratch using Laravel 12, React 19, TypeScript, and PostgreSQL, delivering a multi-tenant SaaS application with campaign management, contact segmentation
- Integrated Amazon SES for high-deliverability email sending, implementing SNS webhook handlers to process bounce, complaint, and delivery events with signed message validation for security.
- Designed a Redis-backed queue infrastructure with Laravel scheduler and worker containers to handle scheduled campaign dispatch, sequence-based automation, and retry logic for large-volume sends.
- Developed a rich WYSIWYG email template editor supporting merge tags, image uploads, and responsive preview.
- Established end-to-end testing coverage with Playwright
- Containerized the full stack using Docker Compose with separate services for the web app, queue workers, scheduler, and Redis, enabling consistent development and deployment workflows.
- Designed and implemented a CI/CD pipeline using GitHub Actions with on-demand workflow triggers, automating Docker image builds from target branches and publishing artifacts to Oracle Cloud Infrastructure (OCI) Container Registry for streamlined deployment to host servers.

LearningMate Solutions Pvt. Ltd.

Mumbai, India

Senior Software Engineer

Dec 2022 – Nov 2025

- Built and maintained backend microservices in PHP/Symfony with PostgreSQL for AccelerateLearning's K-12 STEM platform, exposing gRPC APIs for efficient, strongly-typed communication between services.
- Developed a science chatbot using RAG, LangChain, and OpenSearch with DynamoDB-backed conversation memory, delivering contextual, memory-aware support that improved student comprehension.
- Integrated ChatGPT for AI-assisted academic support, implementing content-moderation safeguards to keep real-time student interactions age-appropriate.
- Embedded Learnosity's question-authoring and assessment engine to power interactive STEM assessments across the platform.
- Architected an end-to-end AWS analytics pipeline — ingesting raw data into an **S3** data lake, transforming and cataloging it with AWS Glue, and modeling it into analytics-ready datasets via dbt on Amazon Athena.
- Delivered the curated datasets through Amazon QuickSight dashboards, enabling cross-team reporting and self-service, data-driven decision-making.

Seeken Enterprise Pvt. Ltd

Mumbai, India

Software Engineer

Jan 2021 – Dec 2022

- Architected and built a production-grade LMS platform using Laravel, React, Next.js, and MySQL, with secure video streaming (HLS/AES encryption) delivered globally via AWS CloudFront for low-latency, protected playback.
- Integrated multi-gateway payments (Razorpay, Stripe, Paytm) and social authentication to enable flexible monetization and frictionless onboarding.
- Implemented a multi-tenant architecture with a built-in affiliate/referral system, enabling scalable deployment across institutions while driving user growth.

DustValue Pvt. Ltd

Mumbai, India

Web Developer

Dec 2019 – Jan 2021

- Engineered a dynamic rebate calculation tool for sales incentives to enable accurate earnings forecasting to refine distributor strategies.
- Replaced manual Excel tracking with an automated ticket management system to streamlined issue tracking and resolution for Dell's support teams.
- Designed a self-service HR platform with payroll and leave modules to centralized employee data and reduced administrative workload.

Gratitude India Pvt. Ltd.

Mumbai, India

Web Developer

Mar 2019 – Dec 2019

- Automated candidate tracking and interview reminders with a custom web based portal to reduce manual errors and improved hiring cycle efficiency.

SKILLS

Backend Frameworks: Laravel • Symfony • Flask

Frontend Frameworks / Libraries: ReactJS • Next.js • Redux • jQuery • Bootstrap • Material UI

Databases: MySQL • PostgreSQL • OpenSearch • DynamoDB • Firestore

Programming Languages: JavaScript • PHP • Python • HTML • CSS

Cloud & DevOps: Docker • Containerization • Pulumi

AWS (S3, DynamoDB, CloudFront, Glue, Athena, Lambda, EventBridge, QuickSight, CloudWatch Synthetic, EC2, SES, SQS, Secrets Manager)

Firebase (Functions, Firestore, Remote Config)

Caching System: Redis

AI Tools: LangChain • ChatGPT • OpenAI Assistant • GitHub Copilot

APIs & Services: REST API • GraphQL • gRPC • Postman

Architecture: Monolith • Microservices

Multimedia and Security: FFmpeg • AES Encryption • HLS (HTTP Live Streaming)

Payment Gateways: Razorpay • Stripe • Paytm

Process Management: Supervisor • PM2

Version Control: Git • GitHub

IDEs: PHPStorm • WebStorm • IntelliJ IDEA • DataGrip

Database Tools: PHPMyAdmin • Adminer

ACHIEVEMENTS

Individual Excellence Award at LearningMate Solutions Pvt. Ltd.

EDUCATION

Kalsekar Technical Campus

Mumbai, India

Bachelor of Engineering in Electrical Engineering

2015 – 2018

M.H. Saboo Siddik Polytechnic

Mumbai, India

Diploma in Electrical Engineering

2011 – 2014

Anjuman Kurla High School

Mumbai, India

Secondary School Education

2011
